

# Content Organizer

## Release Notes: v5.5

### What's New

This is one of our largest releases to date. We have spent a great deal of time integrating Salesforce CRM Content Library Folders into our flagship Content Organizer application. You can now Create folders, Edit Folders, Delete Folders, and more. Listed are the various changes to Version 5.5

- Added Salesforce CRM Content Library Folders to Preview and List Views
- Improved Video playback
- Improved Archive/UnArchive behavior
- Improved User Interface
- Removed "Tree View"
- Direct Content Delivery Link

### When

February 5, 2016

### Where

[Salesforce AppExchange](#)  
[Content Organizer Support Blog](#)

### Details

Folders are now available under each Content Library. You must first "Show Libraries" under the Library in the Search Results. You can then create folders with sub-folders. Folder functions: Create, Edit, Delete, and Move.

User Interface has been updated to show/hide filter to limit interference with search results.

Action buttons appear on tope and bottom of Search Results.

Video playback has been updated to support Apple Quicktime update.

Content Delivery Links can now be access from the "Content Details"

### FREE

A free Trial is available from the AppExchange
